CONTENT [REDACTED]

SOURCE [REDACTED]

1. Mail received from Junkers personnel now in Russia confirms an earlier report which had stated that the group of turbine specialists is located at Bozimianka, near Ryblishov. The aircraft construction group is at Kimry, for which Savaleva is railroad station. The Diesel specialists group is in Moscow.
2. Seven cases containing construction plans for the JUMO 224 have not been received in Moscow. The cases were loaded on railroad cars in Dessau at an unspecified date but have not been seen since.
3. The first ME 262 has been reported completed in Russia and to have made a successful trial flight.
4. The first casting of JUMO metal casing has been prepared by the Leichtmetallwerke in Radwitz, near Leipzig.
5. The Junkers Werke in Dessau was dissolved on 1 December 1946. Some specialists were transferred to the Polysius A.G., Dessau, and the Dessauer Waggonfabrik, both Soviet Aktiengesellschaften.
6. Special Construction Bureau I (SKTB-I) is being built up as a liaison office for concerns transferred to Russia. It is directed by Ing. Rubens, who was an executive at Junkers during 1945-1946. This Bureau may be responsible for making reports on industrial conditions in other zones and may also be a purchasing agency.

25X1A6a

Comment: Informant speaks of concerns transferred, but there are to date no evidences that SKTB-I is concerned with liaison for other concerns now in Russia but Junkers.
